<p>35a)</p> 																									
<p>35b)                  Period = 1/60th of second                  Amplitude = 120Volts                  Midline = 0 Volts</p> <p>The period is the rate at which the voltage goes up and down                  The Amplitude is the max and min of the voltage                  The midline is between the max and min of the amplitude.</p>
